FREIGHT

All orders are shipped FOB factory/warehouse, except as expressly provided below. When delivered to the Transportation Company, the Purchaser assumes the risk of loss or damage in transit.

Customer orders with net product value in excess of \$7,000.00 will be shipped prepaid by the Yale carrier of choice to a single destination point in the United States.

Customer orders with net product value less than \$7,000.00 will be shipped prepaid by the Yale carrier of choice and freight and handling charges will be added to the customer's invoice.

A minimum freight and handling charge of \$15.00 will be charged on orders with net product value of \$400.00 or less. The minimum freight and handling charge will not apply to orders for only Cut (bitted) keys of any type, Master keys, Master keyed cylinders or padlocks and factory generated bitting lists that do not have any other product types included on the order. Freight on these orders will be charged as the percentage of invoice value.

For orders with net product value greater than \$400.00 and less than \$7,000.00, freight charges will be calculated as a percentage of the net invoice value and will be added to Customer's invoice. The percentage is based on the National U.S. Average On Highway Diesel Fuel Prices as reported by the US Department of Energy in effect at the beginning of each quarter. On the first Monday of each quarter, the

new rate will be published on the Yale and Door Security Solutions extranet and will go into effect on the 2nd Monday of the quarter. Please refer to the Yale distributor extranet for the rate chart and information on the current freight charge percentage. The percentage in effect at the time of shipment of the order will be charged.

Great Grand Master keys, Grand Master keys, Master keys, Construction Master keys, Control Keys, and Change Keys which are shipped separate from customer order for security reasons, on orders with total net product value in excess of \$7,000.00 will be shipped prepaid by the Yale carrier of choice. If the total order value is less than \$7,000.00, the shipping charges will be added to the Customer's invoice.

If a customer provides their own freight account number for the freight charges, Yale will apply a handling fee of \$25.00 to the invoice.

Expedited shipping options – If the customer requests an expedited method of shipping such as "Next Day Air" the charges will be prepaid by Yale and the full rate of the service, as published by the carrier, will be added to the customer's invoice.

Packing – Yale will pack, mark and ship the products according to its standard procedures for shipment, unless the parties agree, in writing, that Yale will comply with any special instructions provided by the customer. Special instructions must be submitted, in writing, at time of order placement. Compliance with special instructions may result in an increased price.
