B Series
Commercial grade deadbolts
Put your trust in the name you know

For more than 90 years, Schlage® has been providing innovative security solutions for schools, hospitals, hotels, condominiums and a host of other commercial buildings. Today, Schlage is at the forefront of cutting-edge technology including wireless security, access control systems including readers, credentials and biometrics. With a wide range of products, styles and finishes, Schlage has what you need, no matter how demanding your project specifications may be. We stand behind every product we make with the best after-sales service in the business. It’s this commitment to design, performance and technology that ensures you can stand behind our products too.

Real security is knowing exactly what you want and getting it

When you know exactly what you want, you don’t want to waste time finding out whether it meets your project specifications. That’s why we offer the world’s largest team of hardware specification writers to help you and your clients turn your vision into reality. And when it comes to products, our commercial suiting options, wide variety of lever designs and rich selection of finishes give you the tools you need to make your projects perfect. You know what you want. With Schlage you can be sure you’ll get it.

Safety, security and confidence

When you choose a Schlage lock you can be sure you’ve done the job right the first time. After all, our products are among the most durable and dependable on the market today. Our locks are easy to install, and simple to repair and maintain. That means fewer callbacks for you, and total safety and security for your customers.
B Series

B250 deadlatches
B500 deadbolts
B600/700/800 deadbolts

Auxiliary locks for added security

Auxiliary locks not only provide added protection for exterior entrance doors, they can also protect common use areas like pool gates and storage/utility spaces from unauthorized access. Schlage delivers flexibility and performance with a full line of auxiliary locks that range from heavy-duty to high-traffic performance, and complement our lock lines. A choice of styles and finishes ensures a consistent look across doors and throughout your building.

We don’t compromise on security

The safety and security of your clients’ buildings is something we take very seriously. That’s why every Schlage lock and deadbolt undergoes intensive testing to determine its ANSI grade level:

- Cycle tests
- Door impact tests
- Bolt strength tests
- Resistance tests
- Warped door tests

We pay attention to these details so you can focus on creating a functional and aesthetically pleasing environment for your clients. In fact, every one of our B Series locks meets ANSI Grade 1 or Grade 2 standards for safety.
B Series at a glance

ADA-compliant products

In compliance with the American National Standards Institute (ANSI A117.1) and the Americans with Disabilities Act (ADA), Schlage Lock Company offers a wide selection of locks designed for the needs of the physically challenged. This act is designed to provide protection for people with disabilities.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.
The B600/700/800 Series are Schlage’s highest grade deadbolt locks. Choose the 600 for Grade 1 security in high-traffic commercial applications. Choose the 700 or 800 and get standard a Primus XP controlled access cylinder (700) or Primus XP high security cylinder with UL 437 rating (800). A variety of functions and finishes makes the B600/700/800 Series a versatile choice for added security no matter where you use it.

Pictured here: B600 (Grade 1) deadbolt with D Series Orbit knob shown in 626 satin chrome
The toughest deadbolts in the business

- 1" (25 mm) throw, high-strength steel alloy deadbolt with hardened steel roller resists sawing and kick-in attacks
- Precision-built solid brass 6-pin cylinders with phosphor bronze springs and nickel silver pins ensure long life and smooth operation
- Tough nickel silver keys for smooth, long-lasting operation
- Exclusive concealed wood frame reinforcer protects wood jamb against kick-in attacks
- Free-spinning solid cylinder collar resists wrenching and prying
- Large inside Americans with Disabilities Act (ADA) compliant thumbturn makes it easy to throw and retract deadbolt
- Metal shield protects bolt from ice-pick attack through the door
- Hardened steel ball-bearings protect mounting bolts from drill attack
- Meets UL10B and UL10C requirements
Deadbolt designs

**B600 Series**
Schlage’s toughest heavy duty Grade 1 commercial deadbolt.
Furnished with conventional cylinder standard.
Also available with full size interchangeable core cylinder or small format interchangeable core (SFIC) cylinder.
Requires 2 1/8” (54mm) prep. UL10B and UL 10C listing standard for auxiliary lock on A label fire doors. Not all functions available as fire rated auxiliary locks. See function charts for required cross bore dimensions.

**B700 Series**
Same lock as B600 Series but furnished with Primus XP controlled access cylinder for patented key control, geographical exclusivity and resistance to picking and impressioning. Also available with Primus XP full size interchangeable core cylinder.

**B800 Series**
Same lock as B700 Series but Primus XP high security cylinder is UL437 listed to resist drilling and other forms of physical attack. Not available in interchangeable core.

B500 Series

The B500 Series deadbolt is a revolutionary new deadbolt that delivers higher security, tougher performance and the ultimate in installation versatility. Designed by locksmiths for locksmiths, the B500 Series deadbolt can be fitted with any Schlage cylinder, fits virtually every door you service, enhances lock strength on the jamb side of the door and will change forever the way you look at deadbolts.

Pictured here: B500 (Grade 2) deadbolt with ND Series Athens lever shown in 626 satin chrome
The best deadbolt ever designed by locksmiths

- Adjustable backset with lock-in-place helix design
- Integrated anti-pry shield protects latch
- Thicker metal security strike back-up on jamb side
- Security strike on jamb has third screw for stronger, deeper anchoring
- Added space inside strike box for true deadlatch
- Seamless steel latch construction along the entire length of the bolt housing
- 10% larger diameter deadbolt
- Zinc bolt with spinning hardened steel pin inside
- Tapered front housing that can’t be unscrewed
- Integrated trim piece for fewer pieces out of the box
- Large, easy-to-use, ADA compliant thumbturn
- Meets UL 10B andd UL 10C requirements
Deadbolt designs

B500 Series

A versatile and economical Grade 2 deadbolt for medium duty commercial and heavy duty residential applications.

Furnished with conventional cylinder standard.

Available with Primus XP high security cylinder, Primus XP UL437 Listed high security cylinder, full size interchangeable core cylinder, Primus XP interchangeable core cylinder, or small format interchangeable core (SFIC) cylinder.

Fits 2 1/8" (54 mm) prep standard and anti-pry shield can be removed to fit 1 1/2" (38 mm) prep. See function charts for required cross bore dimensions.

  - Outside indicator displays "In use" or "Vacant"
  - Requires 1 1/4" cross bore prep
  - Not UL rated
  - 61-509 Emergency key included

- **Schlage ANSI B563 E0172**
  - Classroom deadbolt
  - Deadbolt thrown or retracted by key outside
  - Inside units retracts bolt only

- **Schlage ANSI B580 E0192**
  - Door bolt
  - Deadbolt thrown or retracted by trim unit only
  - Requires 1 1/4" cross bore prep

- **Schlage ANSI B581 E01112**
  - Door bolt with trim
  - Deadbolt thrown or retracted by trim unit only
  - Blank plate outside
  - Requires 1 1/2" cross bore prep

**Caution:**
Double cylinder locks on any door are a life safety hazard in times of emergency and their use is not recommended. Installation should be in accordance with existing codes only.

**ADA compliant:**
Schlage Lock Company offers a wide selection of locks designed to meet the Americans with Disabilities Act.

- Standard cylinder.
- FSIC - full size interchangeable core option.
- SFIC - small format interchangeable core option.
- Complies with ADA Accessibility Guidelines.
B250 Series

Ideally suited for pool, apartment and condominium gates, utility panels and pipe chases, the Schlage B250 Series is tough, reliable and has a proven design that has been the industry standard for decades.

Pictured here: B250 deadlatch with ND Series Rhodes lever shown in 626 satin chrome
The industry standard for tubular deadlatches

- \( \frac{9}{16} \) (14 mm) throw deadlatch resists pry-in attacks and “shimming” of the latch
- Precision-built brass 6-pin cylinders with phosphor bronze springs and nickel silver pins ensure long life and smooth operation
- Tough nickel silver keys for smooth, long-lasting operation
- Exclusive concealed wood frame reinforcer protects wood jamb against kick-in attacks
- Cylinder collar reinforced with security inserts to resist wrenching and prying
- Thumbturn “holdback” feature retains the deadlatch in a retracted position when desired
Deadlatch designs

B250 Series

Considered the industry standard for tubular deadlatches for decades, the B250 Series is ideal for pool, apartment and condominium gates, utility panels and pipe chases.

Furnished with conventional cylinder standard.

Accepts Primus XP access control cylinder, Primus UL437 Listed high security cylinder, full size interchangeable core cylinder and Primus interchangeable core cylinder.

Designed for 1⅛" (38 mm) prep.

Optional adapter plates allow easy installation in 2⅜" (54 mm) prep.

B250 Series Not UL Rated

Cylinders and key systems

Primus XP access control and high security cylinders are available to add patented key control and varying degrees of geographical exclusivity to most Schlage 6-pin key systems, whether Everest 29 or Classic keyways.

In addition to a conventional pin tumbler mechanism, Primus cylinders incorporate a patented finger pin and sidebar design, providing a “dual-locking” cylinder that is virtually pick-proof. Resistance to drilling and other physical attack is optional by specifying 20-500 Series UL437 Listed cylinders.

Classic Primus XP cylinders are recommended for upgrading existing Classic key systems. Due to its extended patent life, the newly designed Everest 29 Primus XP is recommended for new key systems and for upgrading existing Everest key systems. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

Visit us.allegion.com for more information.
Schlage locks are provided with cylinders precision built to extremely close tolerances and the highest standards of accuracy. Using only solid brass plugs, phosphor bronze springs, and nickel silver keys and bottom pins, ensures long life and ease of operation.

Cylinder plug face available in 606, 622, 626, and 643e finishes only.

Conventional cylinders are available in Classic keyways or in the patented Everest 29 keyways. Specify keyway to differentiate between Everest 29 and Classic.

Schlage locks are provided with cylinders precision built to extremely close tolerances and the highest standards of accuracy. Using only solid brass plugs, phosphor bronze springs, and nickel silver keys and bottom pins, ensures long life and ease of operation.

Cylinder plug face available in 606, 622, 626, and 643e finishes only.

Conventional cylinders are available in Classic keyways or in the patented Everest 29 keyways. Specify keyway to differentiate between Everest 29 and Classic.

</table>
Schlage interchangeable core (IC) locksets allow immediate rekeying at the door simply by using the special control key to replace the core in seconds.

**Full size interchangeable cores and housings - options**

- Conventional core
- Primus XP core

Cores available 606, 622, 626, and 643e finish only.

**Small format interchangeable core (SFIC)**

Available in B500 and B600 Series, the small format IC option is designed for Schlage Everest 29 R Family restricted keyway cores and is also completely compatible with Best®, Falcon, and other small format cores.

- 7-pin uncombined Everest 29 R family restricted keyways
- 7-pin combined Everest 29 R family restricted keyways
- 6-pin uncombined Falcon / Best keyways
- 7-pin uncombined Falcon / Best keyways
- Disposable plastic construction core

80-033 and 80-043 cores are available in Best A, B, C, D, DD, E, F, G, H, J, K, L, N, O, R, TB and TD keyways. Specify keyway by suffixing “B” to keyway letter, e.g. “AB”.

80-036 and 80-037 restricted keyway cores require a letter of authorization from the end user. Schlage assigns the keyway when establishing new Everest 29 restricted key systems.
Latches and bolts

B Series bolt and latch fronts are available in a variety of configurations to fit your door prep dimensions. Latches are furnished in brass, bronze or chrome finishes compatible with the lock finish.

**Door reinforcement**

Reinforcing unit is required to reinforce and help prevent the collapse of hollow metal doors when locksets are tightly mounted. This kit should be used with long backsets for B Series lock installations in hollow metal doors to prevent lateral movement of the latchbolt. Specify door thickness, 1 1/8" (35 mm) or 1 1/4" (44 mm), when ordering reinforcement kits.

**Reinforcement kit 37-001**

Kit includes:
- Reinforcement A501-566 for 1 1/4" doors or A501-565 for 1 1/2" doors
- Sleeve A501-567 for 5" backsets

24 • Schlage • B Series
Strikes

All B Series strikes are fully reversible for right handed and left handed doors, and are furnished complete with screws. Strike boxes are also included with all standard strikes. B Series deadbolt strikes are also packed with our exclusive wood frame reinforcer or a metal dust box reinforcer for added protection against “kick-in” attack.

Furnished with standard and round corner deadbolt strikes, this reinforcer significantly strengthens a jamb against “kick-in” attack and greatly increases the security of the lock. The reinforcer is concealed under the strike and is anchored to the jamb with two 3” long screws. B500 Series metal dust box reinforcer anchors (B520-622) to jamb with three 3” screws.

B600R and B700R Series use the same tailpieces as listed for B600J Series.
Specifications

Handling:
B250 Series deadlatches are reversible. All other B Series locksets are non-handed.

Door thickness:
B500 Series, 5-pin: 1 3/8" to 1 3/4" (35 mm to 44 mm) standard. Available to 2 1/4" (57 mm), assembled to order.
B250 Series, 5-pin: 1 1/8" to 1 1/4" (35 mm to 44 mm) standard. Available to 2 1/4" (57 mm), assembled to order.
B600/700/800 Series: 1 3/8" to 2" (44 mm to 51 mm) standard. Available for 1 1/8" (35 mm) and doors up to 2 1/2" (63 mm), assembled to order. Door ranges may vary by function.

Backset:
B500 Series: Adjustable for 2 3/8" (60 mm) or 2 3/4" (70 mm) standard.
B250 Series: 2 3/8" (60 mm) standard. 2 3/4" (70 mm) optional.
B600/700/800 Series: 2 3/8" (70 mm) standard, 2 3/8" (60 mm), 3 1/8" (95 mm), 5" (127 mm) optional.

Front:
Brass, bronze or stainless steel. 1 1/8" x 2 1/4" (29 mm x 57 mm) square corner, beveled.

Dead bolt:
1" (25 mm) throw with saw-resistant hardened steel insert.

Latch bolt:
Brass, 1/8" (14 mm) throw, deadlocking on keyed and exterior functions.

Exposed trim:
Wrought or forged brass or bronze, or pressure cast zinc.

Thumbturn:
Pressure cast zinc, plated to match finish symbols.

Strike:
B250 and B600/700/800 Series: 1 1/8" x 2 3/4" (32 mm x 70 mm) with steel reinforcer and two 3" screws standard. B500 Series: 1 1/8" x 2 3/4", metal dust box reinforcer and three 3" screws. Optional strikes, lip lengths and ANSI strike box available. See page 25.

Cylinder and keys:
6-pin solid brass patented Everest 29 S123 keyway standard with two nickel silver keys per lock. Everest SL cylinders available in 7 pin Everest B and Everest 29 R keyway families only. Items specified in C keyway will be furnished 5-pin.

Keying options:
Interchangeable core and Primus XP high security cylinders. Master keying, grand master keying and construction keying.

Warranty:
Commercial: Three-year limited.

Certifications

ANSI:
B500 and B250 Series meet or exceed A156.36-2010 Grade 2 strength and operational requirements. B600/700/800 Series meets or exceeds A156.36-2010 Grade 1 strength and operational requirements.

UL / cUL:
B600/700/800-Series locks are UL10B Listed auxiliary locks for A label single doors, 4' x 8'. UL 10B and UL 10C listing optional for B500 Series as auxiliary locks. Letter F and UL symbol on latch front indicate listing.

UL437 Listed locking cylinder optional:
Specify Primus 20-500 Series cylinder for B500 and B250 Series Grade 2 products, or specify B800 Series Grade 1 products.

ADA compliant:
Schlage Lock Company offers a wide selection of locks designed to meet the Americans with Disabilities Act.

Cylinder and keys:
6-pin solid brass patented Everest 29 S123 keyway standard with two nickel silver keys per lock. Everest SL cylinders available in 7 pin Everest B and Everest 29 R keyway families only. Items specified in C keyway will be furnished 5-pin.

Keying options:
Interchangeable core and Primus XP high security cylinders. Master keying, grand master keying and construction keying.

Warranty:
Commercial: Three-year limited.

**Line item**: Line item number

**Qty**: Quantity

**Product**: Product function + cylinder code

**Outside des**: Outside lever design

**Outside fin**: Outside finish

**Inside des**: Inside lever design - Specify only if different from outside lever design

**Inside fin**: Inside finish - Specify only if different from outside finish

**Hand**: Hand of door - N/A for A lock

**Latch**: Product latch - Leave blank for standard latch or specify part number if non-standard latch is required

**Strike**: Product strike - Leave blank for standard strike or specify part number if non-standard strike is required

**Dr thk**: Door thickness - Enter door thickness if non-standard (example: 13B=1 \( \frac{3}{8} \); 214=2 \( \frac{1}{4} \))

**Ext**: Extension - Enter for doors 1 \( \frac{7}{8} \)" or greater (example: EE=extended equally; EI=extended inside; EO=extended outside; ED=extended differently)

**Dim**: Dimension - Enter only for non-standard strike lip length

**Additional details**: Enter additional detail for keying information or special requirements

---

**Lock series**

- **B5**

**Function**

**Cylinder suffix**

- **P** 6-pin cylinder
- **L** Less 6-pin cylinder
- **R** Full size interchangeable core
- **J** Less full size interchangeable core
- **T** Full size construction core
- **BD** Less SFIC
- **BDC** Disposable SFIC
- **GD** Everest 29 Patented SFIC
- **HD** Construction SFIC
- **Z** Everest SL 7-pin cylinder

**UL listing suffix**

- **F** UL listed
